

## Product Data Sheet

### DBGP

**Di Butoxy Glycol Phthalate** is a plasticizer for cellulose resins and some vinyl resins (PVC, PVAc) and acrylic Resins. It is a softener and processing aid for chlorofin rubber, nitrile butadiene rubber, styrene butadiene rubber.

#### SPECIFICATIONS

Acid number, mg KOH/gm (Max)	: 1
Appearance	: Clear liquid
Color (Max)	: Yellow
Ester content, % min	: 96

#### TYPICAL PROPERTIES

Acidity (as % Phthalic Acid)	: 0.15
Flash point, °C	: 205
Boiling point, °C	: 270/2.9kPa
Molecular weight	: 366
Specific Gravity @ 30 °C	: 1.058 + 0.006

#### PACKING

Available in 220 Kgs HDPE barrels or bulk load in tanker.
