

Product Data Sheet

MIOM / MOM

It is a Cleaning agent for steal coatings. It is used in synthesis of polymeric resins. IT is also used as a curing agent for some polymers.

SPECIFICATIONS

Acid number mgKOH/gm(min)	:	210
Appearance	:	Clear liquid
Color in Hazen (Max)	:	50

TYPICAL PROPERTIES

Molecular weight	:	228
Odour	:	Slight
Refractive index @ 25°C	:	1.460 - 1.470
Specific Gravity, 25°C/25°C	:	1.020 - 1.057

PACKING

Available in 210 Kgs HDPE barrels or bulk load in tanker.
