

## Product Data Sheet

### NK 280

NK 280 is a Benzoate ester Plasticizer formulated specially for use in Latex Adhesives & caulks, hot melt adhesives, and in variety of coating applications. It provides a unique combination of high performance, broad food contact approvals.

#### SPECIFICATIONS

Acid number (mgKOH/gm) max	:	1 max
Appearance	:	Clear liquid Free of particulates
Color, (In Hazen) max	:	150 Max
Assay (as Benzoate Ester) %Min	:	98.0

#### TYPICAL PROPERTIES

Boiling Point @5 mm Hg °C	:	210.0
Flash point, °C, (Closed Cup)	:	197
Freezing point, °C	:	< 16
Odor	:	Mild Ester like
Specific Gravity, 25°C/25°C	:	1.15
Vapour Pressure mmHg@ 25°C	:	4 x 10 <sup>-3</sup>
Refractive Index @20°C	:	1.535
Viscosity,cps @ 25°C	:	93

#### PACKING

Available in 220 Kgs HDPE barrels or bulk load in tanker.
